High-Performance Friction Materials for Extreme Environments

IMA Freni has developed friction materials capable of operating under harsh environmental conditions without compromising their initial braking force.

The company offers two key services:

Component Refurbishment

We restore worn brake discs and shoes through vulcanization or mechanical fastening, extending their service life and restoring original performance.

New Product Manufacturing

We also produce new brake components from scratch, delivering fully finished and ready-to-install products tailored to your system's requirements.

IMA GREEN REGENERATION, REUSE AND RECYCLING FOR A SUSTAINABLE FUTURE

FOR US, PAYING ATTENTION TO THE ENVIRONMENT AND TO FUTURE GENERATIONS
IS NOT SIMPLY A TREND.

WE HAVE ALWAYS BELIEVED IN A CIRCULAR
ECONOMY THAT FOCUSES ON PEOPLE AND NATURE, WHERE REUSE AND RECYCLING CREATES NOT ONLY
COST EFFICIENCY, BUT IS, ABOVE ALL, THE DIRECTION OF SOCIETY AND THE MARKET.

IN OUR SHOP, THANKS TO THE EXPERTISE ACQUIRED IN OVER 50 YEARS OF ACTIVITY, WE REBUILD BRAKE
PARTS WITH "WORN-OUT" MATERIALS.

IN THIS WAY WE ARE ABLE TO REDUCE WASTE MATERIALS BY BETWEEN 20 AND 30 PERCENT,
THUS REDUCING WASTE AND THE NECESSITY TO FIND DISPOSAL SOLUTIONS.

RE-GENERATION IMA!
